

WATER ISLAND HERMIT THOUGHT TO BE SUICIDE RETURNS TO HIS HUT

Had Been Hiding in Brush
From Men Sent by Health
Officer.

(Special to The Evening World.)
PATHOQUE, L. I., July 10.—Capt. Frank Rorke of the Blue Point Life-Saving Station at Lone Hill, off this village, found today Dr. W. Charles Willis, the hermit of Water Island, who was believed to have thrown himself into the sea two days ago. Capt. Rorke was inclined to doubt the report that Dr. Willis had committed suicide when he saw Officers Rowland and Smith from the office of Overseer of the Poor Sylvester McCann approaching the island. Dr. Frank Overton, the Health Officer of the town, had asked Mr. McCann to act because of the conditions of filth and starvation in which he heard the half-demented physician was living.

Capt. Rorke kept a close watch on Water Island, and an hour or more after the departure of the county officers saw Dr. Willis come out of the brush and make his way to the tumble-down hut which he made his home. Capt. Rorke came over to the mainland today and notified the authorities. He found that Dr. Mary Willis, a physician of Jersey City, Dr. Willis's mother and his brother, who is connected with a large Jersey City manufacturing concern, were in town to investigate the reports of his disappearance.

Mrs. Willis and her other son agreed they would go to Water Island and get Dr. Willis and take him to some place where he could be kept under restraint for the rest of his life or until he entirely recovers from his mental disturbance which is due to the use of drugs.

MUST GUARD AGAINST FIRE.

F. S. Board Orders Railroads to Equip Cars With Extinguishers.

The Public Service Commission made it known today that when a fire recently happened in a passenger train rushing over the Jamaica Bay trestle, no fire extinguishers were at hand. The entire train was threatened by the flames and one of the cars was almost completely consumed. The train was operated by the New York Consolidated Railroad Company, which has a permit to run

over the Long Island Railroad Company's tracks.

The Commission today ordered the New York Consolidated Railroad and the Long Island Railroad companies to equip by Sept. 15 each of their electrically operated cars with one or more chemical fire extinguishers of such a type that the contents cannot act as an electrical conductor.

Oldest Engineer Gets Medal.

BORDENTOWN, N. J., July 10.—George W. Scott, the oldest living locomotive engineer of the Camden and Amboy Railroad Company, and who is ninety-two years old, has been presented with a medal from the members of the Roeloff Council, No. 72, Locomotive Engineers, of Trenton, for being a member of that order for forty years.

Because

Because it contains the kind of nourishment that those suffering from consumption need but do not obtain from their food, is why Father John's Medicine has been so successful for 80 years in curing throat and lung troubles, and preventing consumption.

It is a food medicine free from alcohol or poisonous drugs. Remember, it is guaranteed. Not a patent medicine.

The First of the Compose Costumes For Autumn

"The Auteuil"

Suit of Velour de Laine

At \$47.50

Just where its long cutaway coat curves to the sides, the skirt is caught up to form the draped effect that won so much favor at the recent Paris Races. But, as this skirt is the masterpiece of a skilled designer, it is not bunched or cumbersome in the back—it being perfectly flat to accentuate the long and straight lines of the coat.

The coat is of plain black velour de laine, and the skirt is of black-and-white striped velour cloth.

Compose Suits

Scotch plaid skirts and green cloth coats, \$47.50.

Black-and-white checked skirts and black coats, \$35.

New Serge Suits for Autumn
